4th PLAST SHOW

SURAT | 2 | 3 | 4 | 5 APRIL 2026

Exhibition in Plastics Process Machinery & Raw Materials

We believe the potential benefits of 3R (Reduce, Reuse, Recycle), and we advocate it, how-ever it is not enough because it does not deal with plastics' end-of-life. We need the 4th R-Return to Earth. This will truly return plastic naturally back to earth and holistically close the life cycle loop.

REDUCE

We should only use what we need. Education, advocacy, incentives as well as disincentives (e.g. paid plastic shopping bags) to promote this idea can be implemented.

REUSE

Product design and education should encourage people to reuse as much as possible. For example in Indonesia, the thin plastic shopping bags are heavily reused as garbage can liner to the point that the thicker garbage liner plastic, which are prevalent in developed countries, do not exist.

RECYCLE

It is critical to continue improve plastic recycling rate; we all should do our best here. However, we need to also recognize there are pragmatic technical (e.g., multi-layer laminated plastic packaging) and economical (e.g., bulky polystyrene as well as other low value items are hard to collect economically) limitations. Plastic also generally cannot be recycled forever (it downgrades).

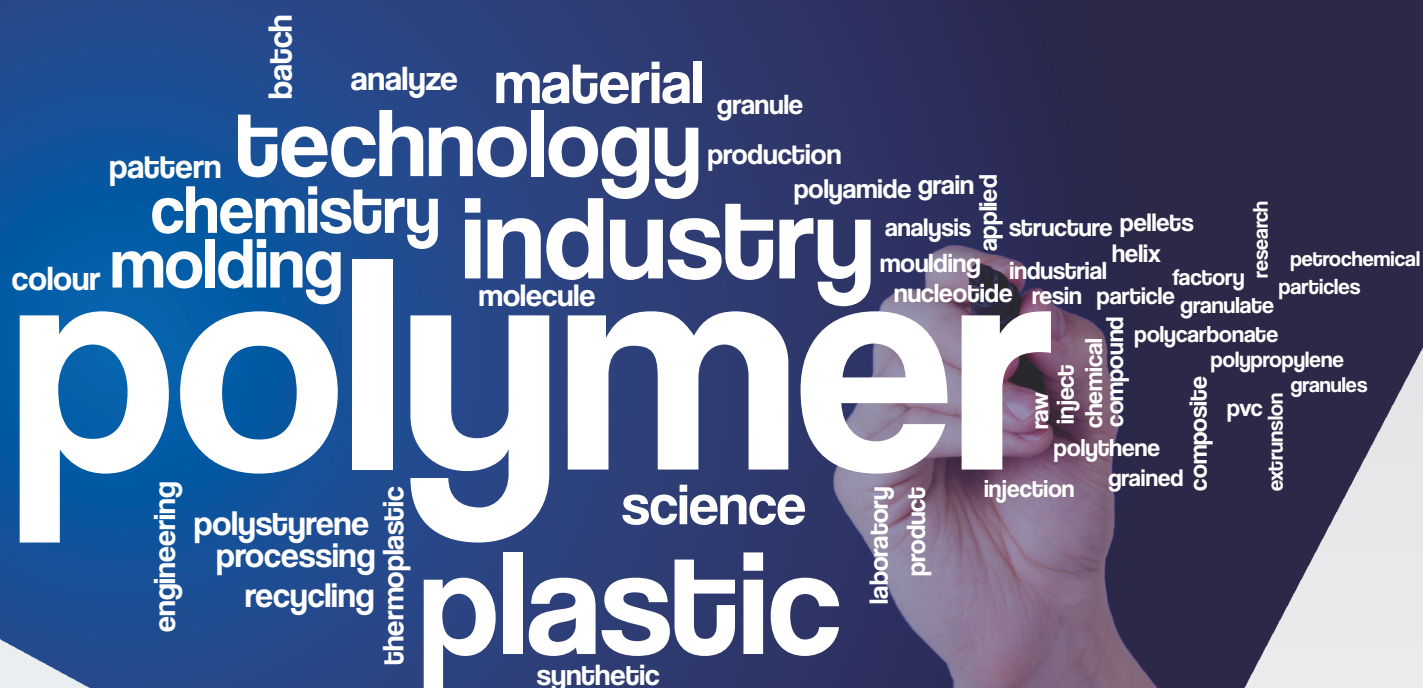

RETURN TO EARTH

After allowing for all 3R above, the degradable technology then will degrade plastics at chemical and molecular levels cutting off its long hydrocarbon chains (not physical fragmentation!)- and allowing microbes to consume it and help reduce accumulation at the landfill. It will degrade the plastic within 2-5 years, much better than natural 500-1000 years.

PARTICIPATION COST

Size is 9 sq. mtr. (3m x3m),
per sq. mtr.
India : Rs. 11500
Foreign: US \$ 150
Dealers / Agency : Rs. 12500
(Government Tax & GST 18% Extra)

3-PHASE POWER

Exhibition : Rs. 1,200 per hp

COMPRESSED AIR

Exhibition : Rs. 11,000 per
Connection
(Power Charge Extra) &
(Loading / Unloading Extra)

Standard Facility

Participation charges cover Name Fascia, One laminate Table, Two chairs, Three Spotlight and one 5 amp plug. One copy of the exhibition's souvenir, two exhibitor badge for minimum 9 sq. mtr. stall.

The organizer will arrange general security for the exhibition hall and insurance coverage of the exhibition primacies in general exhibition area.

Timings

Business Visitors : 10:30 am To 2:30 pm

General Visitors : 12:30 am To 6:30 pm

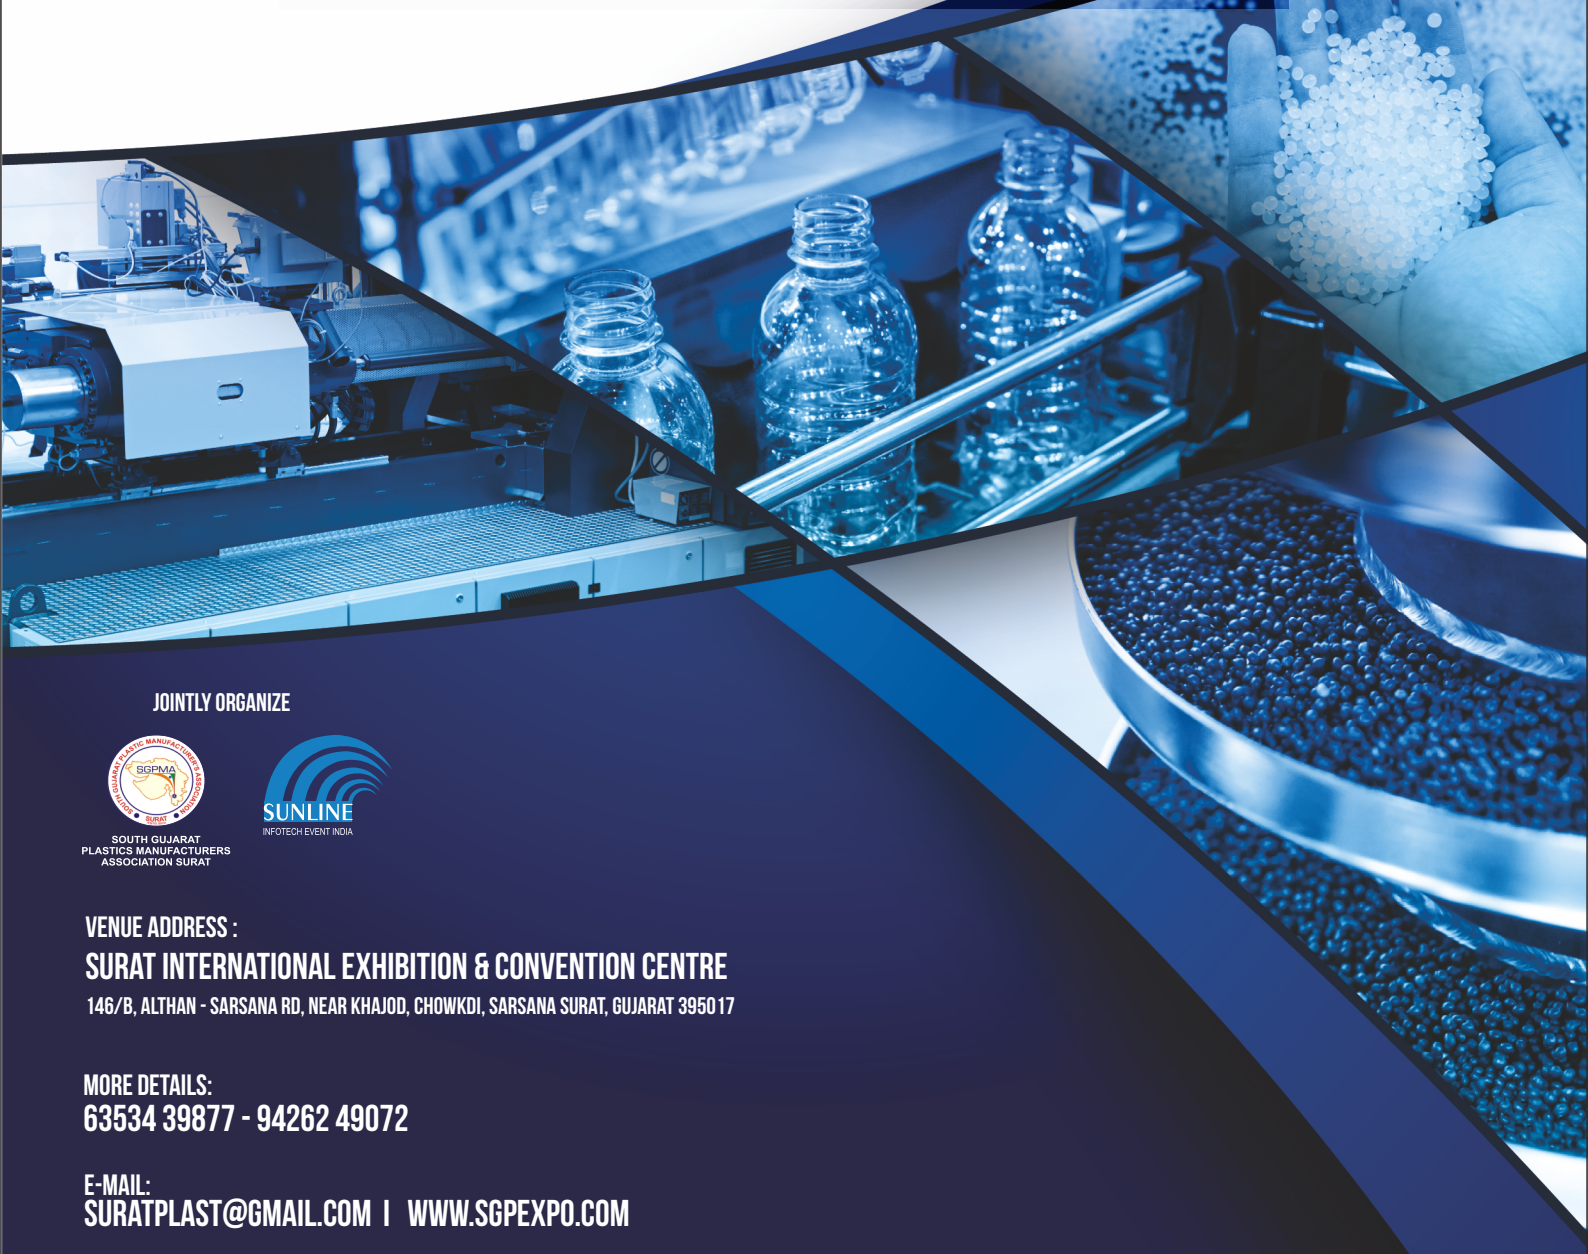

Cancellation Charges

No Cancellation cost will be refund after Date 15th, January - 2026

Deadline to complete exhibition transfer and stall decoration before 9:00 pm on
1st, April - 2026

Note: No transfer of material / goods will be allowed during exhibition time.

Note : Organizers reserve the right to change, alter, modify specifications give in this information brochure.
